

Gaurav Thapa

Backend Developer

9764234550 || gauravkazi7@gmail.com || github.com/gauravkazi || Kathmandu, Nepal

PROFESSIONAL SUMMARY

Backend Developer and BCA student with 9 months of internship experience at Juji Consultant, specializing in MERN stack development. Skilled in backend development with Node.js, Express.js, MongoDB, and REST APIs. Experienced in JWT authentication, RESTful API design, and third-party API integration (Stripe). Strong interest in backend development, scalable APIs, and server-side application architecture.

WORK EXPERIENCE

Junior Developer Intern — Juji Consultant

June 2024 – February 2025 | Kathmandu, Nepal

Developed and integrated RESTful APIs consumed by frontend clients, participated in client meetings to understand design requirements and present prototypes, collaborated with senior developers to debug and optimize existing codebases, and gained practical experience using Git for version control in a team-based environment.

PROJECTS

E-commerce Backend — Node.js, Express.js, MongoDB, Stripe API

- Built a full REST API backend with JWT authentication, role-based access control (customer/admin), product catalog, and shopping cart management
- Implemented order processing with Stripe payment integration, including PaymentIntent creation and webhook handling for payment status updates
- Designed cart-to-order conversion logic with automatic pricing calculation (subtotal, tax, shipping)

GitHub: <https://github.com/gauravkazi/ecommerce-backend>

JWT Authentication API — Node.js, Express.js, MongoDB

- Built a standalone authentication API implementing secure user registration and login with JWT access and refresh tokens
- Implemented password hashing, protected route middleware, and role-based authorization
- Designed reusable auth middleware for use across multiple backend services

GitHub: <https://github.com/gauravkazi/JWT-Authentication-API>

Student Management System — MERN Stack, MongoDB

- Developed a full CRUD student management platform with role-based access
- Built RESTful APIs for managing student records, attendance, and grades
- Implemented JWT-based authentication paired with a responsive React dashboard

GitHub: <https://github.com/gauravkazi/student-management-system>

EDUCATION

Bachelor of Computer Applications (BCA) 2023 – Present

AIMS International College || Tribhuvan University || 4th Semester

Relevant coursework: Data Structures, Web Technologies, Database Management, and OOP

TECHNICAL SKILLS

- Programming languages: Python and JavaScript
- Front-end development: HTML, CSS, and React.js
- Back-end development: Node.js and Express.js
- API technology: REST API, JSON handling, Fetch API, Stripe API
- Database management: SQL and MongoDB
- Version control: Git and GitHub
- Debugging Tools: Browser DevTools and PyCharm debugger
